

FEATURES

- *Easy to use*
- *Can be connected to any 20 mm diameter hose*
- *Works at 2-4 bar pressure*
- *Needs no extra proportioning equipment*

Application

- Fire brigades
- Industry
- Warehouses
- Petrol Stations
- Work shops

Recommended Foam Concentrates

- AR-AFFF 3x3
- Multi purpose foam

Operation

Connect the MXP to a 20 mm hose line and squeeze the trigger nozzle. The MXP will produce a medium expansion foam over a wide pressure range. The MXP produces a medium expansion foam with a foaming index of between 30-50. The ease of use and the light weight of the MXP makes it ideal for use against small liquid fires or class A fires. The MXP can fill small rooms or be used to cover spills in order to prevent fires i.e on workshops during welding jobs or at petrol stations.

Construction

The MPX has a built in foam inductor that draws foam from a 2 or 5 litre foam container.

The MPX, medium Expansion Foam Pistol is easy to use and has a multitude of applications. Workshops, Fire brigades, Petrol Stations is just a few areas where the MXP will fit in as a handy tool for small fires or spills.

Technical data

Nominal water flow	30-40 lpm
Operating pressure	2-4 bar
Proportioning ratio	3%
Discharge time with 2 ltr Concentrate	1.5 – 2.0 minutes
Quantity of foam/min	Approx. 3 m ³
External coupling thread	1" BSP M
Material	Stainless steel/Aluminium
Length	665 mm
Height	400 mm
Width	140 mm
Weight	2.9 kg
Part no.	20-0000-00
