

SpiroGuide

Heads-Up Display

- ① One glance, hands-free cylinder pressure information
→ **Concentrate on the situation at hand**
- ② Highly visible Buddy Reading
→ **All team members informed about each other's status**
- ③ Placed inside the mask
→ **Well protected and optimal visibility**
- ④ Wireless technology
→ **No cables and minimum installation time**
- ⑤ Two-way wireless communication
→ **100% secure link and no risk for mismatch between HUD and BAC**
- ⑥ Turn-Back signal indication
→ **Get out in time**
- ⑦ Installed without any tools
→ **Easy to install and remove**
- ⑧ Long duration power supply with standard batteries
→ **Low maintenance cost**

SpiroGuide

Heads-Up Display

The effective lights in the **Heads-Up Display (HUD)** instantly show the cylinder pressure of your equipment as well as showing your colleagues that everything is OK. Dark smoke or bright daylight – the lights adapt to the conditions as you concentrate on the situation at hand.

Thanks to the two-way communication of SpiroGuide you get a 100% secure link between the **Breathing Apparatus Computer (BAC)** and the wireless Heads-Up Display. Furthermore you never risk a mismatch. You can be sure your HUD always displays the information from your BAC. Wireless means getting rid of cables and minimising installation time.

An optional **Turn-Back signal** makes sure you get out in time. The level can be set automatically or to any requested limit suitable for your operating procedures.

The Heads-Up Display is equipped with a **“Buddy Reading”** feature. Your colleagues can easily read the lights on your HUD, just as you can read theirs. The SpiroGuide Heads-Up Display is the reliable way for you to stay in control at all times. It's also the best solution for the team.

STANDARDS

- EN50020
- EN50014
- EN50082-1
- EN61000-6
- UL913
- JCDD/38
- NFPA 1981
- NFPA 1982
- prEN137:2002

APPROVALS

- Directive PPE 89/686/EEC
- Directive EMC 89/336/EEC
- NIOSH 42 CFR (Part 84)
- NFPA 1981:2002

BATTERY DATA

- 2 x AAA alkaline batteries
- Duracell MN2400 or Energizer E92 recommended for optimum performance
- Up to 100 hours during normal use

WEIGHT

- 55 gr including batteries

OPTIONS

- Turn-Back signal
